Mailvio Integration With GoDaddy

As a valued customer of Mailvio, we recognize the importance of a seamless and easy-to-do Sender Authentication setup. To enhance your experience with Mailvio, we have introduced '[Sender Verification Tool](#)'

This allows you to verify the sender's email with Mailvio

This feature supports both the root domain setup but also any sub-domain sender authentication if you require that.

The following straightforward guide will assist you in effortlessly verifying Sender Authentication for your domain with GoDaddy:

Step 1: Log in to your GoDaddy Account - <https://sso.godaddy.com/>

Step 2: Go to <https://developer.godaddy.com/keys>

Step 3: Click on the 'Create New API Key' Button

Step 4: Assign a name to your API key and choose 'Production' in the Environment section, then proceed by clicking the 'Next' button

Step 5: You'll be provided with API Secret and API Key, store it somewhere safe, you will be using that on the Mailvio Sender Verification Tool

Step 6: Now go to <https://app.mailvio.com/sender-verification-tool> Select GoDaddy on the tab menu

Step 7: Choose your domain from GoDaddy and enter the API Key and API Secret obtained in Step 5. After entering these details, click on the 'Save Integration Settings' button to finalize the process.

Step 8: If everything goes right, click the '1-Click DKIM, DMARC, SPF DNS Setup' Click Here.' button to set your Sender Verification DNS settings for Mailvio.

Step 9: Verify DNS entries set in GoDaddy

Multiple SPF DNS Entries

If you have multiple SPF DNS entries, It'll merge them into one single entry. If you already have an SPF set up, it will be included without losing any of your previous settings.

DMARC Reporting Email

To prevent 'DMARC report spam', we won't set up a DMARC entry reporting email by default. But if you wish, you can manually set it up later

if you encounter any issues or errors during this process, don't hesitate to reach out to us. We are here to assist you every step of the way. You can contact our support team at any time by emailing support@mailvio.com
