

Signup Forms

Stats of your signup forms

Analytics for Signup Forms

Now that you've created and deployed your Signup Forms you can monitor how successful they are at obtaining new subscribers.

Step 1: Go into the Signup Forms tab and here you will see the different Signup Forms you've created.

Step 2: Choose one of your forms and select the three dots to the right and click 'View Analytics'.

Step 3: Here you can get a review of how well your forms have done so far. It's good to test out which type of form is best for you, try an Embedded or a Hosted Form and see which gets the best response.

It's also great to gather extra information on your customers, for example, what devices they primarily use, when they're signing up, and how many impressions you're receiving.
