How to create an email campaign

Step 1: Log in to your [Mailvio](#) account.

Step 2: From your Dashboard, click on the Campaigns tab.

Step 3: Click on the Start a Campaign button.

Step 4: Name your email campaign. Then click Create Campaign.

Step 5: Select the recipient. You can choose from segments and groups.

Step 6: You can also set the Advanced Options. Consider batch sending especially for your first email.

Step 7: Then click Close when done.
